to me

Hi Cheryl,

I have two entries for last month:

4/13 - Report of a loose dog on private property on Sopak Rd. Upon arrival the dog had returned to its residence and the owner was spoken to about the incident and orders to correct the behavior. No reports since then.

4/14 - Report of two loose dogs within Lake Taghkanic State Park. One was caught and turned over to me shortly after the call. Upon arrival to the park the second dog was located with no owner present. Both dogs were brought to CGHS and reclaimed by the owner a few days later.
